

Surrogacy UK
Application form for Full Membership:
Intended Parents.

A very warm welcome to Surrogacy UK. Thank you for requesting the application form to join the organisation as Full Members. This form is for heterosexual couples and there is a separate form for same-sex couples.

The questions on this form serve several purposes:

First, we need to obtain some **basic information** about you as a couple for our records.

Second, we need to ensure that you have had the **necessary tests and checks** required for surrogacy: these vary according to whether you are considering host surrogacy, straight surrogacy, or both.

Finally we ask some questions about your **hopes and expectations** for surrogacy. Don't worry if you have not reached definitive answers to these questions. We include them here so you can start thinking about these issues together, and you can discuss them further at your face-to-face Surrogacy UK Membership Advisory Session.

We do ask you to fill the form in as **accurately** as possible. We hope you understand that if you are found to have deliberately withheld information, or have given false information, we may cancel your membership. In this case a refund of your membership fee will not be possible.

If there you feel there is **not enough space** in this form to provide the answer you would like to give to a question, please just **number it** and provide your answer on a separate sheet.

Surrogacy UK's policy now requires **BOTH** applicants to be **living together** in the UK, and not just domiciled. Your supporting paperwork should demonstrate this.

Please return your completed application form to:

Intended Father

Do you have any criminal convictions? Yes / No

If **yes**, please describe in detail:

Intended Mother

Do you have any criminal convictions? Yes / No

If **yes**, please describe in detail:

Section 7: Straight Surrogacy

Please complete the following section if you are considering straight surrogacy. You should consider the following points:

Inseminations:

If you chose to do your inseminations at an IVF clinic, you will have to fulfil their requirements for the use of quarantined semen (see the section on Host Surrogacy for details)

Semen analysis:

Some GPs are willing and able to arrange this on the NHS; others will suggest you use a private IVF clinic. In both cases we recommend asking for an additional Mixed Agglutination Reaction (MAR) test on the semen sample as this will be required as part of your application.

Sexual health checks:

Intended Fathers require sexual health checks before membership, and again prior to starting inseminations. In some cases, the Intended Mother may be required to have STI checks prior to starting inseminations as well. Please see the checklist towards the

end of this application to confirm what results are needed as part of your application; alternatively you can contact us on membership.secretary@surrogacyuk.org

There are various other tests that you may wish to consider which are optional and have been listed below.

Intended Father

Have you had a **Cystic Fibrosis** carrier test? Yes / No

This is a common and serious genetic disorder, and 1 in 25 people in the UK are carriers. If both you and the biological mother are carriers, there is a 1 in 4 chance of the child being affected.

Have you had a **Tay Sachs** carrier test (people of Jewish heritage only)? Yes / No

Have you had a **Beta-Thalassaemia** carrier test (people of African, Caribbean, Middle-Eastern, and Mediterranean heritage only)? Yes / No

Have you had a **Sickle Cell** carrier test (people of African, Caribbean, Middle-Eastern, and Mediterranean heritage only)? Yes / No

Have you had a Cytomegalovirus (CMV) test? Yes / No

If so, what was the result? Positive / Negative

Have you had a semen analysis? Yes / No

Where would you hope to perform inseminations?

This is most commonly done in the Surrogate's own home, but could also be in a fertility clinic, or another place that you have agreed with the Surrogate.

How often would you be willing and able to perform inseminations each month?

Please note that 2-3 inseminations per month are recommended, each around 24 hours apart.

How many months of inseminations would you be willing to try?

Please note that a maximum of 6 months is recommended, after which all parties can consider the available options.

Are you prepared to make any necessary lifestyle changes to improve the quality of your sperm? This may include changes to your diet, stopping smoking, reducing the amount of alcohol you drink, and taking vitamin supplements.

Yes / No

Would you both plan to attend the inseminations?

Yes / No

Please note that some Surrogates would only feel comfortable carrying out an insemination if the Intended Mother accompanies the Intended Father.

Section 8: Host surrogacy

Please complete the following section if you are considering host surrogacy. You should consider the following points:

Semen analysis:

Your IVF clinic can perform the semen analysis, or it may be possible to have this organised on the NHS.

We recommend asking for an additional Mixed Agglutination Reaction (MAR) test on the semen sample

Quarantine:

*A **six month** quarantine period is usually required prior to transferring embryos to your Surrogate, although some clinics do not insist on this. Please check with your clinic if you are unsure.*

If you are going to use a quarantine period, the six months can either apply to frozen semen, or frozen embryos.

In the first case, embryos created using quarantined sperm would be available for use immediately.

In the second case, the embryos would need to be frozen and could not be used for six months.

Sexual health checks:

If you are only considering host surrogacy, you do not need to have your health tests completed before joining SUK.

Some clinics will insist that both of you have sexual health tests. Your clinic can arrange these tests, or to save money it may be possible to have them done on the NHS, either via your GP, or via your local sexual health clinic.

Sexual health tests usually have to be performed both before and after the quarantine period.

The tests required are listed in the separate "Checklist" at the end of this application.

a) Intended Father and Intended Mother

Are you already registered with an IVF clinic? Yes / No

If **yes**, which? _____

Would you consider moving clinics in order to have treatment closer to your Surrogate? Yes / No

Do you have sperm frozen in an IVF clinic? Yes / No

If **yes**, when was it frozen? _____

Have you attempted egg collection in the past? Yes / No

If **yes**, please describe the outcomes of the treatment:

Do you have embryos frozen in an IVF clinic? Yes / No

If **yes**, how many and when were they frozen? _____

b) Intended father

Have you had a **Cystic Fibrosis** carrier test? Yes / No
This is a common and serious genetic disorder, and 1 in 25 people in the UK are carriers. If both you and the biological mother are carriers, there is a 1 in 4 chance of the child being affected.

Section 9: Expectations and preferences for your surrogacy relationship

The questions in this section are intended to make you consider your hopes and expectations for a surrogacy relationship. You don't have to provide definitive answers, and the issues will be discussed in detail at your Membership Advisory Session. Please indicate below if an answer is either something you feel very strongly, or something you remain unsure about.

A pregnant woman's lifestyle choices can affect an unborn child. It can be difficult for Intended Parents to accept that they have little control over the Surrogate's behaviour during this time.

Please indicate whether you would be prepared to work with a Surrogate who:

- Smokes before conception Yes / No
- Smokes at all during pregnancy Yes / No
- Drinks alcohol before conception Yes / No
- Drinks alcohol at all during pregnancy Yes / No
- Is obese Yes / No
- Has strong religious convictions Yes / No
Please bear in mind that some religious convictions may prevent a Surrogate from accepting certain medical procedures, such as a Termination of Pregnancy, or a blood transfusion
- Has not completed her family Yes / No

You can add any comments about the above questions here:

What age-range for a Surrogate you would be prepared to work with?

Please describe the relationship that you would hope to have with your Surrogate while trying to conceive, during the pregnancy, and in the longer term.

What is the maximum distance from your home that you would like your Surrogate to live?

Bear in mind that while you may initially think that distance is no object, long journeys might reduce the chances of you having a lasting friendship. Please also take into consideration the implications for inseminations in straight surrogacy, and for attending antenatal scans during the pregnancy.

During the pregnancy:

Would you expect the Surrogate to have all recommended scans and tests? Yes / No

Would you ask the Surrogate to have any extra scans or blood tests that you would pay for privately? Yes / No

Would you aim to attend all scans and antenatal appointments that the Surrogate attends? Yes / No

Please describe any circumstances in which you would want the Surrogate to undergo invasive diagnostic tests such as amniocentesis:

Are there any circumstances in which you may ask the Surrogate to terminate the pregnancy? Yes / No

If **yes**, please outline them and the upper time limit when you would consider this.

Would you be prepared to work with a Surrogate whose views substantially differ from your own on the above questions? Yes / No

Broadly, are you both in agreement with your answers to the above questions? Yes / No

If **no**, please outline any differences here.

Would you hope to be present at the birth, if the Surrogate agrees to this? Yes / No

Would you be happy if the Surrogate wanted to hold the baby? Yes / No

Section 10: Expenses

Please confirm that you understand it is illegal to give any payment to the Surrogate or her family, other than reasonable expenses Yes / No

Please confirm your understanding that in SUK such payments should never be expected, asked for, or offered Yes / No

Please confirm that you will pay all reasonable expenses incurred by the Surrogate in your surrogacy journey. This includes all expenses incurred while you are getting to know one another, while trying to conceive, during the pregnancy, and in the postnatal period. This would also include the costs for any professional counselling that the Surrogate may require in connection to your surrogacy journey Yes / No

Please confirm that you will pay expenses incurred before conception on an ad-hoc basis, and during the pregnancy on a monthly basis, usually between 5-10% per month, with the remainder once the baby is born Yes / No

Please confirm that you accept Surrogacy UK is not involved in paying, transferring, receiving, or enforcing these payments, and that any expenses will be transferred directly between the Intended Parents and the Surrogate

Yes / No

Please indicate the total amount of expenses you would be able to afford, excluding any treatment costs payable to a fertility clinic:

£ _____

Section 11: Paperwork

Do you both consent for Surrogacy UK to communicate with your GP, medical specialist, or fertility clinic, if they contact us directly?

Yes / No

Please note that SUK would not do this without contacting you first.

If the Surrogate is unmarried, will the biological father put his name on the birth certificate?

Yes / No

Do you accept that if the Surrogate is married, her partner's name will be recorded on the birth certificate?

Yes / No

You will be reissued with a new birth certificate naming you as the legal parents following on from the Parental Order process.

Are you intending to apply for a Parental Order when the baby is aged between 6 weeks and 6 months?

Yes / No

Will you be willing to meet with a Parental Order Reporter as part of this process?

Yes / No

Would you be prepared to take a paternity test if the court requested it?

Yes / No

Section 12: Media

Surrogacy UK actively seeks media coverage to attract new members and encourage positive attitudes towards surrogacy. Would you be prepared to take part in any activities to raise awareness of the organisation? Yes / No

You are under no obligation to take part, and can change your mind at any time.
